

PUBLICATIONS

Somalia Economic Outlook 2026

A planned annual review of Somalia's economy: its intended scope, its sources, and the method behind it.

WHAT THIS DOCUMENT COVERS

- 01 Macroeconomic frame**
A planned opening chapter assembling published fiscal, monetary and external-sector data into one dated series, with gaps and revisions marked rather than smoothed over.
- 02 Sector chapters**
Intended chapters on trade and logistics, financial services and mobile money, livestock and agriculture, construction, and digital infrastructure.
- 03 The view from the states**
A section reading the economy outward from the federal member states rather than from Mogadishu alone.
- 04 Risk chapter**
A structured treatment of climate, security, currency and fiscal risk, written as scenarios with stated assumptions rather than as forecasts.
- 05 Data notes**
A closing appendix recording every source, when it was collected, and how much confidence we place in it.

STATUS

This document is in preparation. Veynuus publishes research only once the underlying fieldwork, data and review are complete, so no findings are presented here. This file records the scope and intent of the work and will be replaced by the full publication on release.
